NITC-Share

The NITC-Share is an application which has been in development and aims creating an intra-campus marketplace for student community so students can sell or buy used goods like Bicycles, electronics, stationary etc. It works on auction model. Where each product will have specific base price specified by seller. Buyer can bid on it and person with the highest bid will be buying the product.

This application is android based and following tech stack is used.
XML, Figma, Firebase, Android Studio, Star UML.
